

Setting Up the Portable Hotspot on Your Moticom T2

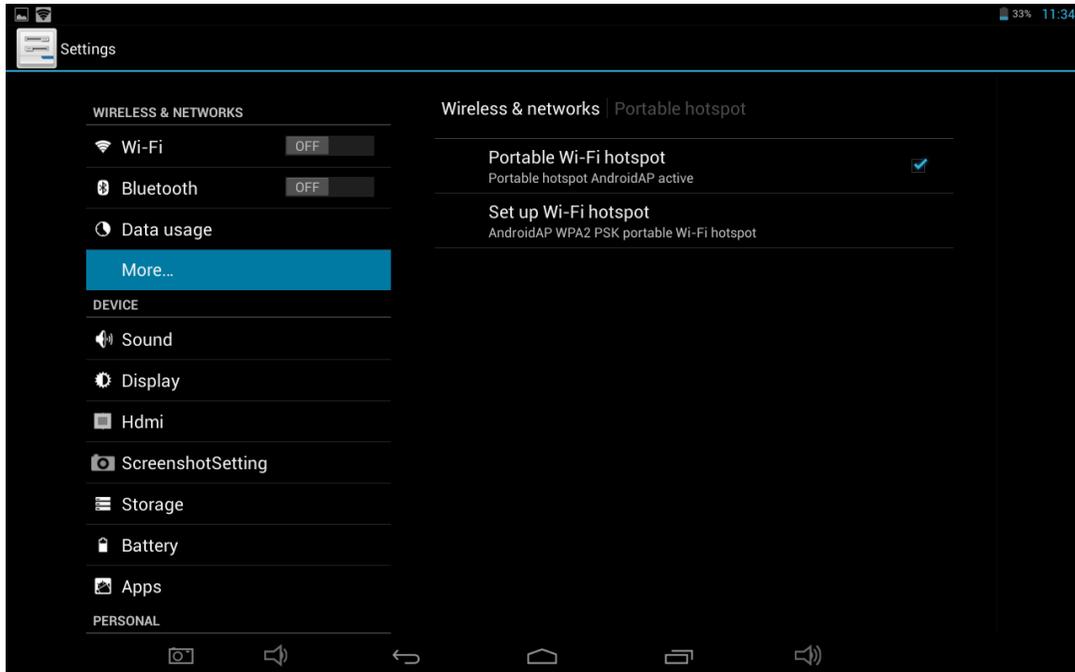

1. Tap on the “Settings” button at the bottom

2. Press on “More” (just below “Data usage”) and then select “Portable hotspot”

3. Make sure the “Portable Wi-Fi hotspot” checkbox is checked and go to “Set up Wi-Fi hotspot”

4. In this window, you can set the Network SSID and password for your hotspot if you wish. The Network SSID is the name of your hotspot which will show up in the list of available connections on your other devices.
